

## How to finalise and submit your 12SDK design project

### TASK 2: Junction design

Use provided title boxes on your annexes. The title boxes must be placed in the right bottom corner of the drawings or title page of the Technical report. Fill in your name, scale, task number, annex number and name of the annex (content) in the title box for the Plan and moreover the date of printing and paper format in the title box for the other annexes (Technical report).

The name of the Annex is in format: **TASK 2: Name of the Annex from the table below**

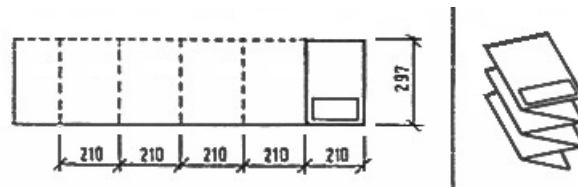

For example: **TASK 2: Plan**

No.	Name of Annex (content)	Scale	Paper	Note
1	Technical report		A4	One title box on the cover page of the Technical report covering all the parts A to F
1.A	Design process		A4	
1.B	Diagram of traffic flows		A4	
1.C	Diagram of junction lanes		A4	
1.D	Traffic load diagram		A4	
1.E	Capacity calculations		A4	
1.F	Horizontal geometry calculation		A4	
2	Plan	1 : 500	*	Depends how it fits

\* try to fit in a paper with height of 297 mm (A4 height) and length divisible by 210 mm (A4 width)

For printing the drawings, you can set up the printing Layout on separate Layout view or print them directly from you Model space using the rectangles around your drawings, which will frame them for printing on papers of chosen size, see video “12ppok-c-06 - priloha 6.3 (tisk).mp4”, which you can find here: <http://k612.fd.cvut.cz/predmety/12PPOK/English/Exercises/Videos/6.exercise/>

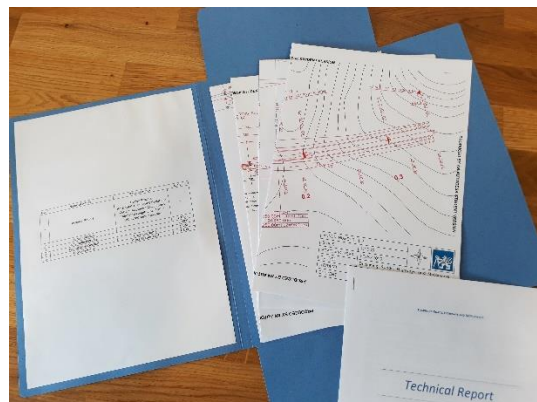

The large paper with you Plan drawing should be folded according to the picture below.

All the annexes should be placed in paper folder with flaps (see pictures below). Do not forget to also include the original assignment paper.

There should be a table of annexes glued to the left inner page of the folder.

Table of Annexes		
No.	Name of Annex	Scale
1	Technical report	
1.A	Design process	
1.B	Diagram of traffic flows	
1.C	Diagram of junction lanes	
1.D	Traffic load diagram	
1.E	Capacity calculations	
1.F	Horizontal geometry calculation	
2	Plan	1 : 500

There should be a cover page of the whole folder glued on its front page. The cover page is of your own style and design, but it should include the [logo of the university](#) (CTU), academic year, your name, group code (if you do not know, write Erasmus), course name and course code (12SDK).
